We also wish to convey our heart full thanks and gratitude to our HOD **Dr. J.BANUMATHI, M.E., Ph.D.**, Department of Information Technology for valuable guidance, encouragement, support and providing us with ample time to complete our project.

It is a pleasure to express our sincere gratitude to our sincere gratitude to our project guide and coordinator **Mrs. R.SONIYA ROBERT, M.Tech.**, Visiting Faculty of IT Department for his guidance, support and encouragement throughout the course of our project.

We wish to convey our sincere thanks to all the teaching and non-teaching staffs of IT Department. Our heartfelt gratitude and thanks to our parents and friends for their perceptual support.

## **ABSTRACT**

Online Examination System is an on-line test simulator is to take online examination, test in an efficient manner and no time wasting for manually checking of the test paper. The main objective of this web based online examination system is to efficiently evaluate the student thoroughly through a fully automated system that not only saves lot of time but also gives fast and accurate results. For students they give papers according to their convenience from any location by using internet and time and there is no need of using extra thing like paper, pen etc. Online examination system helps students to offer a quick and easy way to appear for the test. It also provides the results immediately after the examination with 100% accuracy and security. Student can enter to perform exam only with their valid username and password. This examination contains multiple choice questions and appropriate number of options. There are no limitations on number of options and it can be randomized so same set of question will not appear to all student so it prevent manipulation. More than one option can be correct but the user can select only one option. This provides time limit. The user can see their results after completing the exam. This helps the students to write the exam from far distance and which can provide security and simplicity and other beneficial features to the admin who conducts the examination.
